*0543115560*  
*Accra, Ghana*

Dedicated IT student at Ghana Communication Technology University, currently in the third year of study. Skilled in Python, HTML, CSS, JavaScript, and SQL, with a passion for creating functional and user-friendly systems. Seeking opportunities to apply my knowledge in software development and to grow as a professional in the tech field.

## Work Experience

### Social Media Manager

Dec 2024 - Present

*Apple Xpairs | Accra*

## Projects

### Event Registration System – Group Project

Oct 2024 - Jan 2025

- Collaborated with peers to develop a website for creating and managing events.
- Utilized React.js, CSS, Node.js, Express.js and SQL to ensure smooth functionality and user experience.
- Contributed to the testing and debugging process, enhancing the system's reliability.

### Frontend Website Development

Jan 2025 - Jan 2025

- Developed a fully functional website for selling, swapping, and repairing iPhones using HTML, CSS, and JavaScript.
- Deployed the site using GitHub Pages for public access.
- Implemented responsive design for mobile and desktop users
